Special Instructions:

Large-cut background to 34.5" X 12.5". Apply stabilizer.

Keep shoes far enough from the top to roll the edge (1.5" below top edge). They will be a little closer together than the original pattern.

Xlarge-cut background to 45.5" X 17.5". Apply stabilizer.

Keep shoes far enough from the top to roll the edge (1.5" below top edge). They will be a little further apart than the original pattern.

For either size:

Fuse shoes on before sewing outer layer into a tube. Stitch shoes in place and add any small embellishments. If you wish to add bulky embellishments (flowers, chunky beads and buttons) to your shoes I suggest doing it after the pop-up has been complete. When sewing them on make sure to only catch the outer layer of the pop-up so the spring has room to move around.

Replace 'Outer Fabric rectangle' in Cutting Instructions with pieced outer fabric section. Cut (1) circle for the outer base from a coordinating fabric (template supplied with spring).

Assemble Pop-Up using FQG122 Stacking Pop-Up pattern.

Cut Ties/Loops from Inside Fabric.
